

**PROGRESSIVE  
CONCRETE  
WORKS  
INC.**

*Pervious Pavement—Environmentally Safe Concrete...  
Serving the Valley for 54 Years*

*1954  
To  
2007*

Pervious concrete is recognized by the U.S. Green Building Council's Leadership in Energy and Environmental Design program for enabling integration of paving and drainage that allows for a smaller development footprint on land sites by reducing the amount of land needed to manage storm water.

**Progressive Concrete Works Inc.**

**Has some “concrete” ideas for you.**

Progressive Concrete Works has an unsurpassed reputation for quality work done in a timely, cooperative manner. We provide the latest innovations in specialty architectural finishes. Our showroom, which includes a large variety of samples, provides a comfortable atmosphere in which to examine our products. We are always happy to schedule appointments. Additional brochures, specifications and information are only a phone call away, or visit our comprehensive web site for more information!
